SUMMARY

Full Stack Developer and Software Engineer with 1+ year of production experience building RESTful APIs, React-based UIs, and Node.js/Express/ASP.NET Core backends. Delivered production-grade features across two Agile/Scrum roles; reduced manual ops effort by 40% and improved data retrieval speed by 30% through backend optimisation and SQL tuning. Proficient in Python, C#/.NET Core, JavaScript (ES6+), and MS SQL Server. Experienced in full SDLC, Object-Oriented Programming (OOP), unit/integration testing, Git version control, and AI automation pipelines using LangChain and LLM APIs.

TECHNICAL SKILLS

Frontend: React.js (Hooks, Functional Components, State Management), JavaScript (ES6+), HTML5, CSS3, Responsive Design

Backend & APIs: Node.js, Express.js, RESTful API Design & Integration, Python, Flask, Django, C# (.NET Core), ASP.NET Core

Database: MS SQL Server (schema design, data modelling, query optimisation, indexing, performance tuning), PostgreSQL

Testing & DevOps: Unit Testing, Integration Testing, API Testing, Debugging, Git/GitHub (branching, PRs, code review), CI/CD concepts, Agile/Scrum, Jira

AI & Automation: LangChain, LLM API Integration, AI Workflow Automation, Scikit-learn, Pandas, NumPy, Selenium, GitHub Copilot

Methodologies: OOP, SDLC, MVC Pattern, REST Architecture, Agile, Scrum, Test-Driven Development (TDD)

EXPERIENCE

Full Stack Developer | JDIT Software Solutions Pvt. Ltd. · Pune

Apr 2025 – May 2026

- Engineered C#/ASP.NET Core RESTful backend services integrated with internal APIs, reducing manual operational effort by 40% and cutting data processing time across production workflows.
- Designed Python-based data workflows and optimised MS SQL Server schemas for AI-driven pipelines; improved data retrieval speed by 30% through targeted indexing and query tuning.
- Integrated LangChain and LLM APIs into the SDLC, accelerating AI feature delivery; authored technical runbooks that significantly reduced team onboarding time.
- Delivered AI-driven solutions across 2-week Agile/Scrum sprints; identified bottlenecks and translated business requirements into scalable backend solutions.

Full Stack Developer Intern | iREAM Development · Canada (Remote)

Nov 2024 – Feb 2025

- Developed and shipped 5+ RESTful APIs in Node.js/Express and C#/ASP.NET Core enabling frontend-backend-AI integration; performed unit testing and debugging to meet sprint milestones.
- Built responsive React.js UI pages and components using HTML5, CSS3, and JavaScript (ES6+), improving application performance and supporting AI workflow interfaces.
- Managed codebase in Git (branching, pull requests, code review); authored API specifications and deployment docs in Confluence, reducing cross-team integration issues by 25%.

PROJECTS

Intelligent Expense Prediction System — Python · MS SQL Server · Flask · REST API · Scikit-learn · React.js

- Architected a full-stack ML prediction app with 5 RESTful endpoints, React.js frontend, and optimised SQL Server schema; achieved 87% accuracy via Scikit-learn regression models.
- Managed Git source control, authored complete API documentation, and tuned queries for performance under concurrent load — end-to-end full-stack delivery.

Apex — AI Voice Assistant — Python · LLM APIs · Flask · REST API · OOP · Node.js

- Built a modular Python application using OOP design patterns for command processing, backend logic, and automation; integrated LLM APIs with speech recognition capabilities.
- Wrote complete deployment runbooks and setup documentation; structured codebase for extensibility and maintainability aligned with production software engineering standards.

EDUCATION

B.E. Computer Science — Trinity Academy of Engineering, Pune

Aug 2021 – May 2025 | CGPA: 7.2 | Coursework: Data Structures, Algorithms, OOP, DBMS, Operating Systems

HSC — S.S. Jadhavar Junior College, Pune

2019 – 2021 | 79.84%

CERTIFICATIONS & ACHIEVEMENTS

- Certified AI-Proficient Professional — Superhuman Academy (Feb 2026)
- Coursework: C#, ASP.NET Core (.NET Core), MS SQL Server, REST API Design, Object-Oriented Programming (OOP), Agile Software Development
