EXPERIENCE

CONFIDENTIAL

As Salesforce CPQ + QA

Duration: Oct 2023 –Till Now

- Led QA activities for Salesforce CPQ and enterprise integrations.
- Managed sprint testing, defect triage, test planning, and stakeholder communication.
- Developed and executed automated test scripts using UFT/QTP and Playwright.
- Performed API testing using Swagger and Postman for validation of REST services.
- Conducted end-to-end testing across Salesforce, Boomi, BP, and Workday integrations.
- Improved regression efficiency and test coverage through automation and AI-assisted testing.

CONFIDENTIAL

As Lead QA Test Engineer

Duration: Jul 2022 – Oct 2023

- Led Salesforce CPQ QA initiatives and ensured successful delivery of business-critical releases.
- Executed functional, integration, regression, and API testing activities.

Workday, Generative AI Testing.

CERTIFICATION

ISTQB Foundation Level

Certification

ACCELQ Certified

Automation Engineer

Software Testing with

Generative AI

EDUCATION

B.Tech / B.E. (Electrical

Engineering) – Sri

Venkateshwara

University, Tirupati.

- Validated REST APIs using Swagger UI and backend data verification using SQL.
- Collaborated with business, development, and product teams in Agile environments.
- Mentored team members and conducted knowledge transfer sessions.

CONFIDENTIAL

As Software Quality Test Engineer

Duration: Jun 2019 – Jul 2022

- Performed end-to-end testing for Salesforce CPQ, Sales Cloud, Service Cloud, and Contract Management solutions.
- Designed and executed test cases for pricing, quoting, renewals, contracts, and approval workflows.
- Conducted integration testing between Salesforce, Workday, Dell Boomi, SAP, Informatica, and EBS.
- Automated regression scenarios using VBScript-based frameworks.
- Executed API validation and data integrity testing across integrated applications.

PROJECTS

Contract Management System (CMS): Led testing of Lead, Account, Opportunity, Contract Order, approvals, pricing, discounts, document management, and end-to-end Salesforce workflows.

Salesforce CPQ Implementation: Performed comprehensive testing of product configuration, pricing rules, quote generation, approvals, renewals, amendments, and contract lifecycle management.

MDF & Rebates: Validated MDF activities, claims, rebate calculations, invoice processing, and Salesforce–Workday integrations through Dell Boomi.

UL2Q – Unified Lead to Quote: Conducted integration testing across Salesforce, SAP, Informatica, and Oracle EBS for lead conversion, quote creation, contract generation, and renewals.

New Relic Integration: Tested lead-to-contract lifecycle, JSON payload validations, API integrations, invoice generation, and amendment/renewal processes.
