CERTIFICATIONS

- Oracle Certified Database Administrator (OCP - 19)
- Oracle Cloud Migration and Integration Specialist
- ITIL v3 Foundation Certification – 2012

CORE COMPETENCIES

Oracle Core Database

- Project Execution / Oracle Database Administration / SQL Development
- Infrastructure Support / Technical Support / High Availability
- Database Testing, Security, Migration and Mirroring
- Oracle Installation, Configuration, Upgradation & Migration
- Team Building, Mentoring & Leadership
- Incident / Change Management, Automations, Oracle SRs Creation
- Backup and Disaster Recovery Strategies (DR) / Patch Control
- Debugging & Troubleshooting Database Health Checks

WAJIED AHMED SHEIKH

ORACLE Core Database Administrator

PROFILE SUMMARY

- Senior Oracle DBA with cloud infrastructure management, hands-on experience in Oracle GoldenGate for real-time data replication, monitoring, and troubleshooting. Skilled in high-availability setups, performance tuning. Experienced with Data Guard, RAC, and automation scripting.
- Skilled in Oracle Exadata X6/X10, deployment planning, and configuration of Oracle Grid Infrastructure and database environments, optimizing database performance using Exadata-specific features such as Smart Flash Cache, Storage Indexes
- Over a decade of excellence in installing & maintaining Oracle Database Software, creating storage database structures with high-level security features, setting up database user accounts and creating autonomous database backups
- Key People Leader, who has successfully led and motivated team; rich experience in managerial activities entailing rendering technical leadership & guidance to the team members, planning, scheduling tasks, holding discussions with different functions
- Managed databases from development to mission-critical production systems and configuration & maintenance of database servers & processes including monitoring of system health & performance to ensure high levels of performance & security
- Proficiently analyzing, solving & correcting issues in real time, providing problem resolution end-to-end, refining & automating regular processes, track issues, documenting changes and assisting developers with complex query tuning
- Supported Oracle Production Databases in provisioning, backup/ recovery implementation, release support, patch analysis & deployment, procedure design, review database design, compliance and security audit

WORK EXPERIENCE

May'23 – Mar'26: ATOS Global IT Solutions and Services Private Limited

Client: CNA Insurance, US Client

Role: Senior Database Consultant

Key Result Areas:

- OCI DBA with experience in database provisioning, backup/recovery, and high availability using Data Guard. Skilled in performance tuning, security, and cloud migration using Data Pump and GoldenGate. Proficient in monitoring, automation, and cost optimization in Oracle Cloud Infrastructure.
- Providing Technical support to client data and Oracle infrastructure support & maintenance; implemented Prod/Non-Prod/UAT Change activities.
- Core database admin operational tasks, Managing Oracle EXADATA Servers.
- Lead incident resolution, root cause analysis, and change management for cloud-hosted databases supporting integrations.
- Evaluate and implement high availability (HA) and disaster recovery (DR) solutions.
- Working on:
 - Issues like batch job slowness, performance issue, environment issue
 - SQL tuning issues by analyzing AWR report
 - Database backup related issues with RMAN and third-party Storage

Mar'22 – Mar'23: DXC Technology, Bengaluru as Professional 2 Database Administrator

Client: Deutsche Banking Groups, Germany

Role: Oracle SME

Key Result Areas:

- Skilled in Oracle GoldenGate, managing real-time data replication and ensuring high availability across environments. Skilled in configuring replication processes, performance tuning, and troubleshooting to minimize downtime. Experienced in data synchronization, validation, and maintaining data integrity in mission-critical systems.

- Performance Tuning & Optimization/ Query Tuning & Schema Refinement
- Client & Stakeholder Engagements/ Project Management
- Database Performance Monitoring / Ticketing Management

TECHNICAL SKILLS

Operating Systems

All flavors of Unix, Linux, OEL and Window environment

Languages

SQL, PL/SQL, Unix Shell Scripting

RDBMS

Oracle 8i, 9i, Oracle 10g, Oracle 11gR2, Oracle 12cR2, 19c DataGaurd, Database Cloning, Database Version Upgrades, Database Migration, Rman Cloning, ASM Configuration, Oracle Installation, Oracle RAC Administration, Management, Configure On Unix/Linux

Migration Tools

exp/imp, expdp/impdp, RMAN Cloning, Oracle Golden Gate, Oracle Developer

Tools for Oracle

SQL*Plus, Oracle Enterprise Manager OEM 13c, DGMGRL, Expdp/ Impdp, RMAN Backup Configuration, TSM storage, crsctl/srvctl, ASM, TOAD, SQL Developer

EDUCATION

- Bachelor of Engineering (Computer Science) from Karnataka

PERSONAL DETAILS

Languages Known: English, Hindi, Kannada

Address: Bangalore, India

- Spearheading the complete Deutsche Bank Infrastructure support including Prod/ Uat/ Dev environments and working on high availability features like RAC/DB/ASM
- Providing technical support to client data; creating Oracle SR's & interacting with Oracle Global Support Team and working on RCA (Root Cause Analyzing)

Sep'18 – Mar'22: IBM / Kyndryl India Pvt.Ltd., Bengaluru as Oracle SME

Project: LBG(Lloyds Banking Groups) UK Client

Role: Oracle Tech Lead

Key Result Areas:

- Provided Technical support to client data and provided Oracle infrastructure support & maintenance; implemented Prod/Non-Prod/UAT Change activities
- Led the installation & configuration of oracle Grid Infrastructure & Oracle database and DataGuard setup with ASM & Grid Infrastructure
- Executed Database Performance Monitoring using Oracle Enterprise Manager(OEM)

Apr'17 – Mar'18: Krish IT Solutions Pvt. Ltd., Bengaluru as Asst. Database Manager

Project: IT Global Delivery Support

Client: SABIC Research and Technology Center, Bangalore

Role: Senior Database Administrator Engineer

Key Result Areas:

- Administered Oracle Installation, Oracle Database Creation, User Account Management, Proper Tablespace Quota Implementation, Database Health Checks using Sentry Monitoring Tool, Oracle Network Configuration and Addition/Deletion of entries
- Upgraded the Oracle databases from lower version to the Higher version

Oct'13 – Oct'16: Wipro Technologies India, Bengaluru as Lead Database Administrator

Client: Lloyds Banking Group (Client Place), Manchester City UK

Key Result Areas:

- Worked on migration projects using SQL Developer & Golden Gate tools and Oracle High Availabilities technologies like RAC And DataGaurd
- Contributed in initial Oracle11gR2 RAC installation, configuration and implementation on Oracle Enterprise Linux(OEL) version activity
- Implemented changes using HP SM7, Axis, IBM Clear Quest tools

Apr'11 – Oct'13: TCS India Pvt. Ltd., Bengaluru as IT Analyst

Role: Lead Database Administrator

Associated Projects:

- Equinix Implementation and Support Project
- PeopleSoft Human Resources Oracle Genesis (PHROG)
- DB Trade Finance

Dec'09 – Jan'11: IBM India Pvt. Ltd. Bengaluru as Data Analyst

Project: Navistar Inc, USA | Client: Navistar USA

Project: GMIA | **Client:** General Motors Global Warranty Support

Key Result Areas:

- Administered and maintained Oracle databases.
- Configured and Cloned database backup and recovery using RMAN.
- Managed Data Guard setup, switchover, and failover activities.
- Monitored database performance using Oracle monitoring tools and tuned SQL queries.
- Handled patching, upgrades, and database migrations.

Feb'06 – Dec'09: Qwest Telecom Software Services

Role: Senior Software Engineer

Client: Qwest Internal Clients, US

- Installed, configured, and maintained Oracle databases.
- Performed database backup and recovery using RMAN.
- Administered Object verification & Validation, disabling constraints & Triggers, Data Loading, Adding Data Files / Resizing Data Files, Index Creation, Latest Statistics Gathering, RMan backup and recovery and Database Health Checks
